Dear Dr. Blake: In October 1981, I developed pain on the outside of my right foot. This was during a 10 mile workout. The area was swollen & red, but x-rays taken that day were negative. I have seen 4 doctors since and have had cortisone injections, wraps, ice, you name it with no help. I was running 50-60 MPW, but have not been able to run one mile since. I have a little pain w/walking, but sharp pain when I break into a run. Can you give me advice? /s/Frustrated, DSE Runner/Member

Dear Frustrated: That type of problem should be very frustrating to anyone who cannot do something they love. I have only seen one other history like this and it turned out that the runner had a stress fracture in their foot. There was no relief from all the wonders of physical therapy for almost eight months. The problem stems from the fact that stress fractures, also called 'fatigue fractures,' develop sometimes only as a very small crack in the bone, never really detected by x-ray. And usually, if the stress fracture is to show up on x-ray, it ranges from 2 to 6 weeks afterwards. And this, not as a crack, but as the new bone growth around the hidden fracture. Since your x-ray was taken the day of the injury it may not show a fracture, even if there is one. Some doctors are pushing bone scans for early detection of a stress fracture not seen on x-ray. Radioactive dye is injected into the veins & settle after 2 hours in the most active areas of the body. If there is a fracture actively undergoing repair, the bone scan will show this as increased dye uptake into that area over normal. Because of the potential risks, each individual case must be measured on the urgency of knowing if there is a fracture or not. If you were Joe Montana before the Superbowl, I may consider you for this test.

I would recommend a new x-ray taken at various angles to look for signs of a fracture. It is best to compare these to the old x-rays. If a fracture is suspicious, total rest of the area is needed. I rarely recommend a cast, but since just rest has not helped, 4 weeks in a walking cast is usually needed in this case. Then, if the pain is gone, slow resumption of running with a walk/run program is used. Shoes with good shock absorption are needed. Also, extra cushioning may be needed. Some running stores have a new material called "Sorbothane," supposedly which absorbs 80% of impact shock. Whether or not this is true is not known until a lot of runners start wearing it. Maybe worth a try, I hope this helps.

MEMBERS & FRIENDS OF THE DSE: We are celebrating our first anniversary at "The Brickyard" and busi-ness is doing great. Santa Rosa has many outdoor enthusiasts and there is a race almost every week-end in Sonoma County. I ran the Napa Marathon last month (3.12) and have a 56:53 - 15k time (my best) so far this year. If any DSE'ers are up Santa Rosa way, drop by the sporting goods shop at 450 B St., Santa Rosa...Best to all.....
/s/RALPH C. HARMS, Santa Rosa

HELLO DSE: Just a line to let the DSE know I miss everyone and our Sunday runs. I experienced a slipped disc & hope to recover soon. Louise, say hello to every one for me & I miss you all...God Bless & keep running.
/s/ED LANZARIN, San Francisco

RESULTS SUNDAY 2 Jul 1982 MAY 2

S. Embarcadero Run

Runners have big hearts! Your cards, letters and written tributes to my husband, Dick Houston, have deeply touched the hearts of his family and his close friends.

Throughout this past year Dick took each day in stride, glad to share its moments with those who telephoned or came to his front door. His plucky courage to deal with his illness served as a superb model of how to live life. All of us have benefited from his example.

Dick was an amazing man, rising from his hospital bed in June of 1976 to conquer Pikes Peak in 1977 and ran a P.R. in a West Valley Marathon. His strong will and determination infected all of us who knew him. Running became a family affair: 1) by pacing daughter, Cheryl, through her run to help her win a DSE Biathlon 2) by teaming with son, Jeff, at a Hayward half-marathon and 3) by encouraging me with "You'll Never Be Last!"

Dick loved the excitement of a race. As we drove to a race, he would babble with nervousness, sometimes much to our annoyance as we were trying to wake up in the early morning hours. Once there he would immediately seek out his friends and look over his competition. Flory Rodd, Ralph Paffenbarger, or Paul Reese. Post-race time, however, was Dick's favorite social-hour when he would share the highlights of the race as well as being with his running companions. Once I remember how flattered and humbled he felt when Sister Marion Irvine gave him a big hug and kiss at a DSE Ocean Beach Run. He in turn kidded her about her running barefoot. Such moments we would recall on more quiet days.

My family and I cannot adequately thank all of you. This has been a time of sorrow, yet also a time of awareness as we get to know each other better. May we all continue to RUN with the spirit that Dick gave to us.....

Masters Footnote(s) - 8/17/82

On Sunday, August 15, some of the DSE Masters ran in the Fireman Fund Raiser, San Francisco "Hook & Ladder-10K" in the Golden Gate Park.

A make-up team was gathered from some of the finishers and submitted as follows:

TEAM:	DSE	50's	Name	Age	Time	Place
			Castillo, Jos.	52	39:55	104
			Pacheco, Manny	55	47:18	283
			Cole, Steve	68	49:00	300
			Weisberg, Mort	45	49:30	345
			Aguerre, Frenchy	53	49:33	347

Other DSE Masters also ran but unfortunately were not quickly found. Weather was great and there was plenty of free beer. The star was Steve Cole, almost 70 and running strong!

Master runners are encouraged to contact any of the above regarding future runs, teams and listings.

IN MEMORIAM:

1982

Jim Green

James S. Green died quietly in his sleep on Saturday, August 14, 1982. Jim's wife Myra, long-time SFDSE member and the person who types DSE Race Results, recently achieved two of her personal goals, with Jim's support and encouragement; she ran the Avon International Womens Marathon and she (finally!) beat President Walt Stack at the Twin Peaks Run. Jim was best known to DSE members as the handler of the Greens' two prize winning Akita dogs, Kuma and Putt-Putt. Jim and the dogs showed up regularly to cheer Myra on in DSE races while Hayley and Rochelle, Jim and Myra's teenage daughters, provide free small-fry sitting services for DSE members' children. We will miss Jim, and we offer our love and support to Myra, Hayley, and Rochelle.....

DSE 10

Dear Dr. Blake: Recently, I have developed sharp starting pain on the outside of my right knee. This happened after the San Bruno Hill run. I can barely move my knee now, but there is no swelling. Please Advise-A DSE'er

DEAR DSE'er: Thank You for writing. Knee pain of this nature should not be focused with, due to the possibility of a torn cartilage which may have been precipitated by the downhill run. The knee should be evaluated with treatment of rest, support & strengthening exercises. The quadriceps can be tested for their strength thru the use of a Cybex machine which gives a readout of how weak they are. The exercises can be done & the knee retested within a few weeks. If the knee is strong & the pain has subsided, return to training is initiated. If the symptoms redevelop then an orthopedic surgeon should be consulted. The Cybex is a wonderful machine for determining the strength & weaknesses of the patient's knees. Do not wait on them! It could be very serious.....

A N N O U N C E M E N T
 Dr. Richard Blake & Dr. Ron Valmassy will present "HOW TO PREVENT INJURIES" time to be announced to first 100 SFDSE members sending name, address & telephone number to: **MIN JOHNSON, 1660-18th Avenue SF, CA 94122**
 Dr Blake can be reached (415) 771-2055.....

WESTERN STATES, 100 - with Dick Collins

In the 1982 August DSE News, I listed local DSE'ers finishing this race within the time limit.

A few additional notes of interest are hereby added: Valerie Doyle ran a strong race, 3d woman behind winner, Bjork Austrheim-Smith; honored guest at this year's DSE Gala. Her time improved from 1981 by 23 minutes to finish in 18 hrs/23 min.-7th Place!

Doug Schrock, Paul Deloria & Paul Bush ran very well & are proud owners of a new belt buckle. Tom Zavortink ran his usual well paced race & picked up his 4th buckle. He is one of only 5 runners w/4 buckles.

Several runners who had previously finished the race were forced to withdraw this time due to various problems. Included were Skip Gibbs, womens winner, 1979 & 3 time buckle winner, Jim Fauss, who has 4 finishes; including the famous 37-hr run, 1978 w/DSE Founder, Walt Stack. Jerry Norse who finished in 1979 & made a remarkable recovery from a serious leg injury & Steve Jaber, who finished w/a buckle last yr but was unable to overcome a bad cold this year.

Sherman Welpton finished his 3d straight race in the 28-hr. range, even though hobbled by a leg problem.

Pete Mattei, one of only 3 finishers in 77' completed his 4th race w/the aid of Ruth Anderson, pacing him over the final 40 miles.

I managed to finish for the 4th time & set a new record for naps at Michigan Bluff, w/a 3-hr. effort.

Lolly Hess & John Buenfil managed to get me going again/pacing me the last 40 miles & I thank them for their efforts!

Over-all Winner, Jim King, winning Lake Tahoe 72-miler last Sept. His time of 16:17:07 was only 15 minutes off the record time set last yr by Jim Howard & Doug Latimer.

A runner, speaking at the Sunday banquet said, "the hardest thing about this run is waiting a whole year to run it again." Another more appropriate quotation, regarding the toughness of the run, appeared in the June issue of "Playboy" w/all the publicity accorded Hawaiian Iron Man. The question was raised, "which event is toughest?" The quotation read; "if you want to test your endurance, compete in the Iron Man - if you want to go beyond endurance & have a glimpse of your soul, try the Western States!"

DR. BLAKE CONT'D

be tightene
hold to a count
of 5, relax and
repeat 10 times
4-5 times daily
These are cal-
led isometric
exercises. Do
not do it if
pain results...
Aspirin or
buffered aspir-
in can be
effective in de-
creasing in-
flammatory
reactions caus-
ing pain. It
should only be
used during the
initial period
when you are do-
ing the above.
Chronic use
should be
avoided. To be
effective 2 tabs
4 times dai is
needed.

I hope this
helps.

Lake Tahoe-82' with Dick Collins

Rae Clark of San Jose worked his way up from his 3d place finish in 1980 & his 2d place finish in 81' to win the 1982 race in record time of 9:06:14. His time averaged out to almost 8 miles per hour for a hilly 72-mile run.

Judy Milkie of Anaheim set a new open women's record of 10:45:11, breaking the previous record by almost one hour.

Kay Moore of Colorado broke Marty Maricle's women's master record of 13:14 by 22 minutes posting 12:51:52.

Weather was cool, 42/55 degrees for the event. No rain on race-day, although it snowed the day prior & rained heavily the day after.

Traffic bad as ever & one reason the number of finishers, this year, decreased from 79 to 62.
